### **KIOTI Europe Attends the GOFAR Tour 2026 with RT100 Transport Robot**

Toulouse, France – 5th February 2026 – KIOTI Europe is pleased to announce its participation in the GOFAR Tour 2026, marking the company's first appearance at the international event dedicated to innovation in autonomous and robotic farming solutions.

Building on its experience showcasing advanced agricultural robotics at the World FIRA Robotics Forum 2025, KIOTI Europe will join the GOFAR Tour to further demonstrate its commitment to advancing smart agricultural technology. This year, KIOTI will present the RT100 transport robot, a versatile autonomous solution designed to support efficient, safe, and sustainable agricultural operations.

The RT100 is engineered to handle demanding tasks in a variety of agricultural environments, helping farmers reduce labour requirements while improving productivity and operational flexibility. During the GOFAR Tour 2026, visitors will have the opportunity to see the RT100 in action and learn more about how autonomous transport solutions can be integrated into modern farming workflows.

*“At KIOTI Europe, we are committed to driving innovation in agriculture by providing solutions that empower farmers to work smarter, safer, and more sustainably,”* said Douglas Kang, CEO of KIOTI Europe. *“The RT100 transport robot exemplifies this commitment, combining advanced autonomy with practical versatility to help farmers optimize productivity while reducing labor demands. We are excited to showcase this technology at the GOFAR Tour 2026 and demonstrate how robotics can transform modern farming.”*

The GOFAR Tour brings together leading technology providers, researchers, and agricultural professionals across Europe to explore real-world applications of field robotics and automation. KIOTI Europe's participation underscores its ongoing investment in innovation and its ambition to support farmers with practical, future-ready solutions.

#### **About KIOTI Europe**

KIOTI Europe is the European subsidiary of Daedong Corporation, headquartered in Rotterdam, Netherlands delivering agricultural machinery and compact construction equipment across the EU market. KIOTI is the export brand of South Korea's Daedong Corporation, a global leader in smart agricultural machinery since 1947. With KIOTI's commitment to being a value-driven, reliable and innovative brand, our customers benefit from high-quality products, exceptional product support and parts service operations, and comprehensive product line including up to 140 horsepower tractors, utility vehicles, residential and commercial zero turn mowers (ZTRs), compact construction equipment, Robotics and AI-driven precision farming solutions – designed for reliability, innovation, and sustainability. For more information about KIOTI and its products, please visit your authorized KIOTI Tractor dealer or [KIOTI.eu](http://KIOTI.eu).
